Window/Wall Mounting Kit
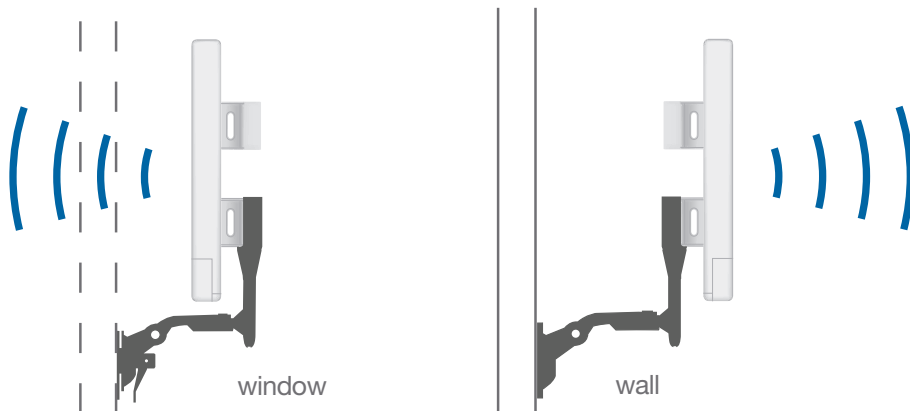

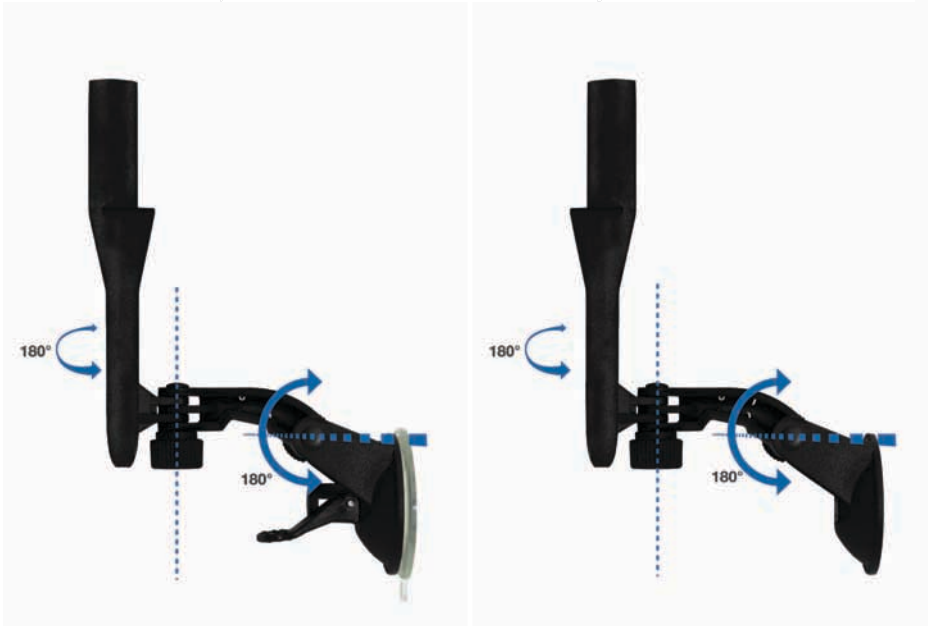

Available now, the Ubiquiti Networks Window/Wall Mounting kit for NanoStation.
Vertically and horizontally adjustable.

window   wall

The kit comes with interchangeable mounting adapters(suction mount for window, wall screws for wall) so the NanoStation can be easily fitted on a window or wall.

Two adjustable points that makes the mount extremely versatile in adjusting NanoStation to the exact position you want.
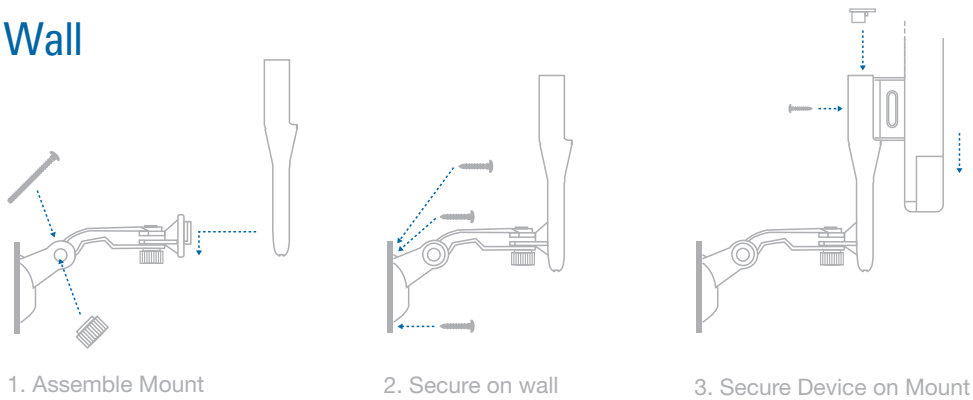

Mount with window mount adapter attached to NanoStation.

Installation Instructions

The NanoStation Window/Wall Mounting kit comes with everything necessary for installation (all you need is a screwdriver). The Kit can easily be installed by following just three steps.
