

## WCCTV Body Worn Camera (Record)

Product Name: WCCTV Body Worn Camera (Record)

Manufacturer: WCCTV

Model Number: WCCTV-REC

### WCCTV Body Worn Camera (Record)

The WCCTV Body Worn camera captures HD video, audio and still images while on the move, and boasts a wide-range of best-in class functionality. The WCCTV Body Worn Camera can provide High Definition playback (up to 1080p) at up to 25 frames per second, with all footage date, time and GPS location stamped to ensure evidential usage.

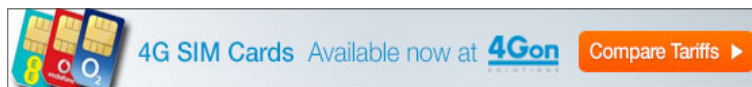

### WCCTV Body Worn Camera (Record) Key Features

- Up to 1080p recording
- 25 frames per second playback
- Audio and video recording
- 2.8" front-facing
- Touchscreen control and navigation
- Local recording up to 128 GB - 17 hours recording
- Removable MicroSD card
- IP65 rated
- Unique prerecording functionality
- 256 bit encryption
- Date, time and GPS stamping
- 8-16 hour operation
- Multiple mounting options
- LED lamp with 4m illumination

The device has an illuminated 2.8" front-facing touch screen display - proven to assist with conflict management - while its unique, continuous prerecording mode ensures full coverage of any incidents. The lightweight yet durable housing is IP65 rated to protect from dust and water damage, and the device is able to operate in temperatures from -15°C to +50°C. Footage is recorded locally to a removable microSD card (up to 128GB) providing 17 hours of recording capacity at up to 1080p/25fps. Playback is facilitated via WCCTV's secure software (256 bit encryption), and the device can be connected to laptops and PCs via its USB interface to allow secure storage of footage. WCCTV provide multiple evidence management software solutions designed for a variety of deployments, dependant on scale and suitability. The device's rechargeable battery provides an operating time of up to 12 hours in standby mode, or 4:30 hours in full recording mode. Downloading and charging is facilitated from one cradle unit, removing the requirement for multiple adapters. A 6 port charging and download cradle unit with cloud integration is available. The device also contains integrated GPS functionality to provide location information for footage, as well for date and time setting, and an LED lamp which provides 4 meters of illumination.

The device features a universal mounting system suitable for various brackets, including Klick-Fast, crocodile clip (vertical or horizontal) or for standalone usage in vehicles.

If you require a monthly contractual SIM tariff, please see the following available SIMs.
